	APPROVAL OF STATE ENGINEER
	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the
0 0 <b>0</b>	wing limitations and conditions: This permit is issued subject to all existing rights in the source. It is understood that the amount of water herein granted is also at the source and that the final water right obtained under this ermit will be dependent upon the amount of water actually placed to beneficial se. It is also understood that this right must allow for a reasonable
1	owering of the static water level at permitee's well due to any other ground
W	ater development in the area. A substantial weir or other type of measuring
d	evice must be installed and measurements of water use kept. The well shall
Ъ	e equipped with a 2-inch opening for measuring depth to water. If well is
f	lowing, a valve must be installed and maintained to prevent waste. The State
r	etains the right to regulate the use of the water herein granted at any and
a	11 times. This permit is also issued with the understanding that the total
dı	uty of water for the lands irrigated shall not exceed 5.0 acre-feet per acre
p	er annum from any and/or all sources.
The :	amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and
	o exceed 5.0 cubic feet per second, but not to exceed a yearly
	uty of 5.0 acre-feet per acre of land irrigated from any and/or all sources.
